MUGA, 16 x 31m, HDPE

FRE601001

The EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material. The core has a thickness of 15 mm and is representing 80% of the total material. The fully flat inside gives the best bounce experience when playing. This flat wall becomes a part of the game and means

the game can flow whilst adding another dimension that can challenge and develop players' tactical vision of the game. The 3 m x 2 m Multi-Goal follows the goal size of FIFA Futsal and IHF Handball regulations. The basketball hoop is placed at the official NBA height of 305 cm and has the official NBA size of 46 cm in diameter.

Item no. FRE601001-0906			
General Product Information			
Dimensions LxWxH	3104x1750x369 cm		
Age group	3+		
Play capacity (users)	-		
Colour options			

MUGA, 16 x 31m, HDPE

FRE601001

10 years

The HDPE panels are available in Night Sky Blue, Grey and Orange, but if required, you can request multiple colours to match playground theming. To increase the design and play value, you can also choose HDPE panels with patterns or have logo's engraved.

The Panna Goals are 118 x 68cm, and the distance between the vertical ø21.3mm tubes is 68mm, small enough to keep all balls in play. The goal is framed with coloured HDPE strips to highlight the target.

The posts are made of 80 x 80 x 3mm profile with horizontally, 6mm welded flanges. This will enable easy installation and strong construction. The low-density polyethylene post caps are attached with blind rivets.

Item no. FRE601001-0906				
Installation Information				
Max. fall height	0 cm			
Safety surfacing area	0.0 m ²			
Total installation time	103.3			
Excavation volume	4.86 m³			
Concrete volume	3.92 m³			
Footing depth (standard)	90 cm			
Shipment weight	5,597 kg			
Anchoring options	In-ground 🗸			
	Surface <			
Warranty Information				
EcoCore HDPE	Lifetime			
HDG Post	Lifetime			

Each panel has 4 Thermoplastic Vulcanizates plugs connecting the panels to the posts. The plugs reduce the vibration and therefore reduce the noise level. The plugs will also simplify installation as they come with pre-assembled nuts.

KOMPAN's Multi Use Games Areas (MUGA) have been designed as a flexible system that can be configured to suit site requirements and budget considerations. You can easily change size, height, panels, entrances and goals.

The HDPE panels are connected with M8 stainless steel bolts to 42.5 x 40 x 3mm welded flanges. These connections are not visible from the inside and create a strong and safe connection.

Sustainability Data

FRE601001

Cradle to Gate A1-A3	Total CO₂ emission	CO₂e/kg	Recycled materials
	kg CO₂e	kg CO₂e/kg	%
FRE601001-0906	11,422.89	2.28	56.98

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Sport

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Sport" represented by item no.: FRE600202-0901.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
