Wow! The Talk & Tumble with Tunnel immediately attracts young children. The variety of play activities will ensure long and eventful play times again and again. The scale is perfectly suited to early years children. The many climb or crawl through play experiences stimulate important motor skills such as cross-coordination. They support peek-a-boo and

hiding games. These train an understanding that objects and people do not cease to exist just because you can't see them and that they will re-appear. With sand scoops, the bench with its apple tree offer nice points for social play and rest. The flower panel table and play spheres invites interaction from both sides. The spheres can be run from both sides of the

panel. This stimulates taking turns skills and encourage social play.

## Sand scoops

**Physical:** hand eye coordination and push-pull movements. **Social-Emotional:** invites cooperation due to the two-sidedness and provides for parallel play. **Cognitive:** logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. **Creative:** shifting scoops, creating new scoop positions.

## Tunnel

**Physical:** the children crawl through the tunnel, developing motor skills such as cross-body coordination and proprioception. **Social-Emotional:** turn-taking when passing each other.

## Keyhole flap

**Social-Emotional:** can be played from both sides, encouraging cooperation. **Cognitive:** tactile variation helps children to understand the characteristics of different materials and their uses. Cause and effect understanding when bending rubber flap.

## Binoculars

**Cognitive:** the binoculars set a tangible theme and thus spur dramatic play. Dramatic play is a great trainer of language and communication skills. **Creative:** the binoculars can be turned in all directions. Looking through them gives a new perspective on the world.

## Desk

**Social-Emotional:** fine meeting place and a space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

## Megaphone

**Social-Emotional:** inspires communication and turn-taking skills. **Cognitive:** distortion of sound evokes curiosity and stimulates an understanding of cause and effect.

## Door opening

**Physical:** encourages running or crawling through, stimulating cross coordination and spatial awareness.
