The Mega Deck with Upper Deck attracts a multitude of children to play together, for a long time, again and again. It is roomy and sturdy enough to facilitate parents and care givers that join their children in play. The unit offers a wide variety of activities as well as graded play accesses: varied climbing outside as well as inside the structure add to the joy and train the

children's spatial awareness, their proprioception and muscles. These motor skills and muscles are all important to navigate the world securely, outside the playground. The many ground level activities add areas for retraction and quieter play. From the various upper levels, great views as well as varied gliding and sliding offer a thrilling ride. This is

what makes children loop the play unit again and again: up the unit, down the slides.
