|-----------------------------|----------------|--|--|--|
| General Product Information |                |  |  |  |
| Dimensions LxWxH            | 133x102x130 cm |  |  |  |
| Age group                   | 6m+            |  |  |  |
| Play capacity (users)       | 6              |  |  |  |
| Colour options              | •              |  |  |  |

The Truck signals play loud and clear and attract infants and toddlers again and again. The cute rounded shapes and the vibrant colours are exciting to children. And the manipulative steering wheel, gear, and yellow headlight spheres can be handled and turned again and again. The car has three compartments, the two of which are relatively open to the front and rear. They both offer ample seating, and the rear also features two tinkering tables. The themes of traffic and cars are well-known to toddlers. They take a starting point in the toddlers' near world and open up the scope of going into the wider world. Dramatic play scenarios such as visiting family are played out repeatedly in the Truck. This is

an important contribution to the development of language skills and literacy.

## Truck

KPL502

**Turning wheel Cognitive:** the manipulative item stimulates cause and effect understanding.

#### Theme Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Truck bed Social-Emotional: the truck bed allows for more children to be together and share. Important life skills like consideration and turntaking skills are built.

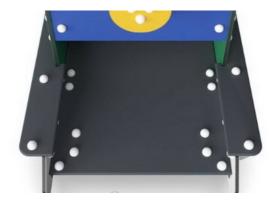

Bench Social-Emotional: gathering, cooperating or taking a break from play - all train social skills.

### **Sustainability Data**

KPL502

| Cradle to Gate A1-A3 | Total CO₂<br>emission | CO₂e/kg    | Recycled materials |  |
|----------------------|-----------------------|------------|--------------------|--|
|                      | kg CO₂e               | kg CO₂e/kg | %                  |  |
| KPL502-0612          | 204.48                | 1.86       | 49.98              |  |

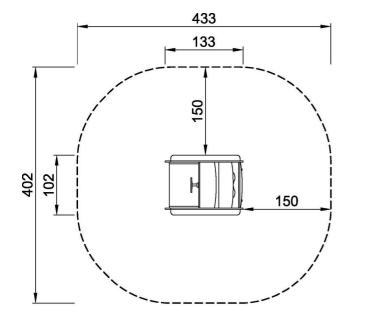

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
