

Large Octa Net + Add-ons

COR10280

Item no. COR102801-1101	
General Product Information	
Dimensions LxWxH	50'7"x42'3"x19'8"
Age group	5 - 12
Play capacity (users)	75
Color options	

The Large Octa Net is sure to WOW those who come across it. Through its multitude of dense, bouncy, and climbing fun, it's a destination hot spot for both children and caretakers! The route to the top is an exciting challenge that gives children a sense of achievement when they reach the top of the mast and enjoy the view of the surrounding area.

Climbing nets are a great method of training major muscle groups and motor skills, such as cross-coordination and balance, which are crucial for developing concentration skills. When the climbers need a break, they can socialize on the membranes while training their turn-taking skills and negotiation. The addition

of a slide adds another layer of fun and an egress from the nets. Taking the path up the coconut rope or rope ladder, through the net, and down the slide will keep children engaged in adventurous play and wanting to come back again and again!

Large Octa Net + Add-ons

COR10280

Highest rungs

Physical: spatial awareness is supported, arm muscles when holding tight. **Social-Emotional:** children develop courage, self-confidence, consideration and turn-taking, all important life skills.

Mast

Physical: the slightly swaying mast stimulates children's muscles and motor skills when they hold tight climbing the net. **Social-Emotional:** children develop courage and self-regulation when climbing up high. This positively affects self-confidence.

Bouncy net meshes

Physical: agility, balance and coordination as well as spatial awareness are supported when bouncing, climbing and sitting in the net. Children use muscle strength of arms, legs and core, and build bone density when jumping down. **Social-Emotional:** the bouncing, swaying net appeals to empathy and cooperation. **Cognitive:** physical memory, logical thinking, concentration.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

Big meshes

Physical: the big meshes allow for climbing and crawling, supporting proprioception, cross coordination and spatial awareness. Climbing here takes muscle strength, pushing and pulling arms to get upwards. **Social-Emotional:** allow more children being seated together, sharing.

Wobble bridge

Physical: sense of balance and training of cross coordination. Important for other skills such as being able to sit still. **Social-Emotional:** turn-taking and helping others when climbing up.

Transparency

Social-Emotional: the transparency makes cooperation and communication possible throughout, important life-skills for children to practice.

COR10280

Item no. COR102801-1101	
Installation Information	
Max. fall height	7'10"
Safety surfacing area	1932ft²
Total installation time	38.9 hours
Excavation volume	54.58yd³
Concrete volume	34.66yd³
Footing depth (standard)	3'7"
Shipment weight	3981lbs
Anchoring options	In-ground ✓
Warranty Information	
Corocord Rope	10 Years
Membrane	2 Years
S-Clamps	10 Years
Spare Parts Availability	10 Years
Steel post HDG	Lifetime

Elevated activities 2	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	0	0
Required	1	1	1

ASTM

compliant

Sustainability Data

COR10280

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
COR102801-1101	4,914.84	3.13	52.68

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Corocord

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Corocord" represented by item no.: COR314011-1101.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
