What is a playground without a slide? This one fits neatly on a 1m high embankment, which means a low fall height and an easy way to run back up to the start. The start frame is made of natural Robinia, which provides an organic structure that can either blend into or stand out from your surrounds. Children can touch and feel the timber while playing, observing how

nature inspiration interacts with the built environment

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
