

Tractor with Slide

PCM51021

Item no. PCM51021-0903

General Product Information

Dimensions LxWxH	549x297x293 cm
Age group	2+
Play capacity (users)	18
Colour options	  

The Tractor is a fantastic themed unit for dramatic and physical play for younger children. The variety of climbing, crawling and sliding activities train important motor skills and major muscles. On the platform, a gear shift, steering wheel and side mirrors add to the farming, driving and building role-plays. On ground level, multiple climbing and crawling

spaces under the platform encouraged little ones to get physical. This movement trains cross-body coordination, builds body confidence and ultimately stimulates cross-modal perception which further supports educational skills, such as reading. Dramatic play is the favorite play type for younger children - apart from building an understanding

of the world, dramatic play also greatly improves language and communication skills.

Tractor with Slide

PCM51021

Gear shift

Social-Emotional: cooperation, turn-taking, sharing. **Cognitive:** suggests a theme and supports dramatic play, which stimulates language skills.

Side mirror

Cognitive: understanding of individuality and self expression. Stimulates dramatic play, language and communication skills..

Turning wheel

Cognitive: the manipulative item stimulates cause and effect understanding.

Slide

Physical: develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** young children develop their understanding of space, speed and distances when sliding down.

Pipe ladder

Physical: cross coordination and eye-hand coordination are supported when children climb the ladder. The climbing also supports leg and arm muscles. **Social-Emotional:** learning about turn taking and cooperation.

Crawl-through hole

Physical: the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when passing one another. **Cognitive:** understanding space, shape and measures when seeing if the body can fit through the hole.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. **Social-Emotional:** the inclination makes climbing feel secure, especially for younger children.

Tractor with Slide

PCM51021

Main posts with hot-dip galvanised steel footing are pre-galvanised inside and outside with powder-coated top finish.

All decks are supported by unique designed low-carbon aluminum profiles with multiple attachment options. The grey colored molded decks are made of 75% post-consumer waste PP material with a non-skid pattern and texture surface.

Item no. PCM51021-0903	
Installation Information	
Max. fall height	118 cm
Safety surfacing area	37.1 m²
Total installation time	28.9 hours
Excavation volume	1.01 m³
Concrete volume	0.06 m³
Footing depth (standard)	90 cm
Shipment weight	818 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Hollow PE parts	10 years
Post	10 years
PP Decks	10 years
Spare Parts Guarantee	10 years

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The slides are available in either moulded PE in different colours or in full stainless steel - AISI304 t= 2mm.

The gear shift is made of PP, which is a durable material.

Sustainability Data

PCM51021

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
PCM51021-0903	1,306.31	2.02	68.62

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
