WOW! The roomy Ocean & Jungle themes appeal to children's urge for dramatic play stories. The under-deck den invites a break time with friends. There is an Ocean side and a Jungle side, inspiring many different play stories. Thanks to the two-sided panels, themes and the varied accesses: curved, straight and net climbers, the Ocean & Jungle

challenges a wide user groups. The climbing events and the slide train motor skills, such as cross-coordination and balance, important for navigating the world confidently. There are multiple meeting points, as the Ocean & Jungle can be played in from all sides. The huge net adds volume and active meeting. From the upper level, children can look and

communicate through the window with those on the ground level. Children meet, greet and play, making friends for life.

The slide is made of moulded PE. PE has high impact resistance across a wide temperature span which ensures vandal resistance in all locations.

Ropes are made of UV-stabilized PP rope strands with inner steel cable reinforcement. Horizontal ropes are PUR coated to obtain good wear and tear resistance.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
