NRO548

General Product Information

Dimensions LxWxH 1740x824x800 cm
Age group 4+
Play capacity (users) 60
Colour options

Just try to keep the kids away from this huge three-masted Pirate Ship built right on the land! There are a variety of levels and play activities, where the children can climb, crawl, bounce and slide until they are worn out. There are nets and climbing walls to build strength and coordination, binoculars and wheels for role-playing, and also quiet spaces under the deck

to count out your treasure. A huge net bridge connects to the center mast and net climber, to keep a lookout. The ship is made of Robinia timber, which provides an organic structure, that can either blend into or stand out from your surroundings. Children can touch and feel the timber while acting out their imaginations and social play, observing how nature inspiration

interacts with the built environment. So jump aboard the Pirate Ship, fire the cannons, and sail the seas!

NRO548

Bow net

Physical: the interconnected bow net and ladders make a challenging climb. This supports cross coordination and major muscles. Social-Emotional: the climbers feel the movements of their peers in the net. This evokes cooperation, turn-taking risk-taking and empathy.

Observation post

Physical: being up high develops spatial awareness and sense of balance. Social-Emotional: a destination and meeting point up high adds social interaction as well as a thrill with great views.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. The hand-holds on top ease entry into platform. Social-Emotional: the inclination makes climbing feel secure, especially for younger children.

Social-Emotional: the roomy platform makes a fine meeting destination for those who have embarked via varied climbers.

Climbing net

Physical: the inclined net supports the upward climbing movement of the body. Cross-coordination, spatial awareness and physical strength are trained. Social-Emotional: the big meshes allow for more children being seated together, sharing.

Physical: develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. Social-Emotional: empathy stimulated by turn-taking.

Cognitive: the cannon set a tangible theme and thus spur dramatic play. Dramatic play supports language and communication skills.

In-ground

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water-based, which is environmentally friendly and has excellent UV resistance. The paint is compliant with Australian Standards.

The Robinia products come in a number of standard colour options. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Item no. NRO548-1021

Installation Information Max. fall height 300 cm Safety surfacing area 172.2 m² Total installation time 93.3 hours Excavation volume 27.88 m³ Concrete volume 13.60 m³ Footing depth (standard) 100 cm Shipment weight 6,328 kg

Warranty Information	
Corocord (Hercules) Rope	10 years
Membrane	2 years
Robinia Wood	15 years
Spare Parts Guarantee	10 years
Stainless Steel Slide	10 years

Corocord 16mm ropes are special 'Hercules'-type with galvanised four-stranded steel wires and a steel wire core. Each strand is tightly wrapped with PES yarn, which is melted onto individual strand. The ropes are hard wearing and vandalism resistant and are easy to replace for any given site.

The stainless steel slides with one piece slide bed are made of high-quality stainless steel AISI 304.

Corocord membranes consist of friction-proof rubberised material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armouring made of woven polyester. The armouring and the two surface layers result in a total thickness of 7.5 mm.

AS 4685 compliant

Sustainability Data

NRO548

Cradle to Gate A1-A3	Total CO₂ emission	CO₂e/kg	Recycled materials
	kg CO₂e	kg CO₂e/kg	%
NRO548-1021	15,916.70	2.83	13.70

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
