in the basin. This trains the child's understanding of cause and effect. For younger children, it stimulates their understanding of object permanence: that materials still exists even though they go out of sight. Children can be gathered on all sides of the table. This supports cooperation, negotiation and communication, all fundamental in the child's

social-emotional development.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
