

Multideck Tower, Banister Bars, ADA

NRO1026

| Item no. NRO1026-1021 | |
|-----------------------------|----------------|
| General Product Information | |
| Dimensions LxWxH | 549x577x507 cm |
| Age group | 4+ |
| Play capacity (users) | 16 |
| Color options | |

The Multideck Play Tower has a fun selection of scaled play challenges and meeting points stimulate children to play for a long time, again and again. The accessible stairway leads to a lower slide, finishing a practical loop for those with assistive devices or assistants. A play desk adds a ground level destination and a place to socialise. The tower can be climbed in

multiple ways: via the stair, via the vertical climbing wall with window openings to decks, or via the net. Climbing trains major muscle groups and cross-coordination. This again stimulates cross-modal perception which is necessary e.g. in reading. For daredevils, the tall banister bars add plenty of thrill and a fast way back to ground level. This hugely trains

spatial awareness, which is good for managing the world securely.

Data is subject to change without prior notice.

NRO1026

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmentally friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

Item no. NRO1026-1021

Installation Information

| | |
|--------------------------|--------------------------|
| Max. fall height | 300 cm |
| Safety surfacing area | 51.7 m ² |
| Total installation time | 44.8 |
| Excavation volume | 1.52 m ³ |
| Concrete volume | 0.19 m ³ |
| Footing depth (standard) | 100 cm |
| Shipment weight | 1,829 kg |
| Anchoring options | In-ground ✓ Surface ✓ |

The hardware is made of stainless steel or galvanised steel to ensure durable connections with a high corrosion resistance.

The stainless-steel activities are made of high-quality stainless steel. The steel is cleaned by a total pickling process after manufacturing to ensure a smooth and clean gliding surfaces.

The Robinia products are designed with a KOMPAN colour concept with a number of different standard colours. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Sustainability Data

NRO1026

| Cradle to Gate A1-A3 | Total CO ₂ emission | CO ₂ e/kg | Recycled materials |
|----------------------|--------------------------------|-------------------------|--------------------|
| | kg CO ₂ e | kg CO ₂ e/kg | % |
| NRO1026-1021 | 834.70 | 0.54 | 6.90 |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
