Let's play

The countless play activities of the Town House with Cafe inspire children to play, move and imagine together, for long, again and again. The socialise-and explore play features on ground level, with table and bench as well as a wealth of tactile moving play details, offer countless dramatic play scenarios. the play features connect children in play under, around

and on the play unit. The elevated level of the platform gives a good view from above and the high slide is an attractive and stomach tickling experience. Sliding additionally trains the children's spatial awareness, their sense of balance and their core stability. These are important fundamentals in movement confidence. Thus, the Town House with cafe offers

physical, social-emotional and cognitive-creative play benefits in one wildly attractive play unit that children will want to visit again and again.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
