

The image shows a technical drawing of a mechanical scale, likely a platform scale, in two views. The left view is a side elevation showing a central vertical column supporting a horizontal beam with two weighing pans. The right view is a front elevation showing the central column and the weighing pan. Dimensions are indicated with arrows and text: \*\*253 is the total height from the base to the top of the beam; \*150 is the height from the base to the center of the weighing pan; and 74 is the height from the base to the center of the weighing pan in the front view.

\*\*253
