

# Little Fox Shop

NRO418

The Little Fox's Shop has meandering, low floors and a dense, activity-packed climb and slide offering with an elevated playhouse that will attract and excite toddlers again and again. Rich tactile features greatly increase play value and support emerging dramatic play in the toddlers. The scale of the Little Fox's Shop is perfectly shaped for toddlers. The leafy crawl-through panel encourages children to crawl and explore. The window with curtain invites

social cooperation between inside and outside, supporting turn-taking and cooperation skills. This curtain also invites peek-a-boo games that support the understanding of object permanence: that things don't cease to exist when they are out of sight. These tactile activities stimulate cross-modal perception, important for improving reading skills and support cross-coordination awareness which is key to physical and cognitive development at

this age. The house with its many details and corners supports emerging dramatic play which stimulates language skills. Thrilling sliding is invited with a friendly loop between the access platform and slide mouth. The inclined climbing wall on the other side adds a different type of access and supports cross-coordination which is key to physical as well as cognitive development at this age.

Item no. NRO418-1021	
General Product Information	
Dimensions LxWxH	9'4"x13'9"x7'2"
Age group	2 - 5
Play capacity (users)	18
Color options

**KOMPAN**  
Let's play

## Rock climber

**Physical:** supports cross coordination and leg, arm and hand strength. The handholds on top ease entry into platform. **Social-Emotional:** the incline makes climbing feel safer, especially for younger children.

## Crawl-through hole

**Physical:** the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when passing one another.

## Gear wheels

**Social-Emotional:** cooperation skills and taking turns are developed when turning the gearing wheel. **Cognitive:** cause and effect understanding, and logical thinking are supported.

## Slide

**Physical:** sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** young children develop their understanding of space, speed and distances when sliding down quickly.

## Supportive handholds

**Physical:** handhold provides good grip for less confident climbers. Pulling yourself up and in trains upper body muscles. **Social-Emotional:** allows for a range of physical abilities to enter independently and securely, supporting play for all.

NRO418

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The product/activities are preassembled from the factory to ensure all safety requirements are considered.

The paint used for colored components is water based environmental friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

There are Multiple footing options for all products: Surface anchoring with steel footings and expansion bolts. Wood in-ground or steel in-ground footings.

Robinia products are available in three different wood treatment options: untreated Robinia wood or brown painted with a pigment that maintains the wood color and colored version with paint of selected components.

Item no. NRO418-1021	
Installation Information	
Max. fall height	1'11"
Safety surfacing area	404ft²
Total installation time	24.1
Excavation volume	2.29yd³
Concrete volume	0yd³
Footing depth (standard)	3'3"
Shipment weight	2084lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information

# Sustainability Data

NRO418

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
NRO418-1021	228.19	0.28	4.30

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Nature play

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
