

# Play Tower with 2.5m Swing

KPL1017

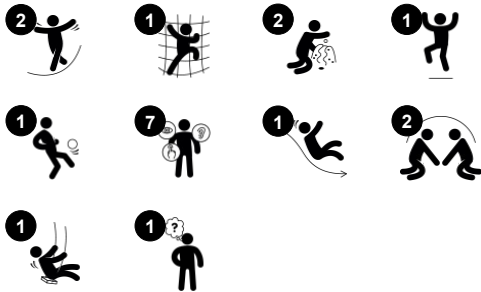

The play tower with 2.5M swing enhances physical play with opportunities for children to move their bodies in play and come back for more again and again. The structure motivates play by providing a variety of physical, creative and social play. On ground level, a ring game play panel stimulates logical thinking and invites a playful break. The climbing wall climb

strengthens muscles and develops cross-coordination skills. This enhances a child's ability to use both sides of their brain, supporting brain structures that enable reading and thinking. The slide offers immense thrills. It also supports posture and balance, important for young children's body confidence as they grow and learn to navigate the world securely.

Swinging is a favorite playground activity, and it also immensely trains the sense of balance, which is crucial to the ability to sit still and concentrate.

Item no. KPL101722-0902	
General Product Information	
Dimensions LxWxH	461x378x372 cm
Age group	4+
Play capacity (users)	5
Color options	 

# Play Tower with 2.5m Swing

KPL1017

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

The main tower posts of either pine wood or aluminium are all equipped with hot dip galvanised steel footings. The steel footings elevates the posts 20mm from ground level to avoid contact with surfacing material.

The large hollow components are made of 100% recyclable PE. The roof displayed is moulded in one piece with minimum 5,5mm wall thickness to ensure high durability in all climates around the world.

Item no. KPL101722-0902

## Installation Information

Max. fall height	148 cm
Safety surfacing area	36.0 m²
Total installation time	9.6 hours
Excavation volume	1.17 m³
Concrete volume	0.24 m³
Footing depth (standard)	90 cm
Shipment weight	377 kg
Anchoring options	In-ground ✓ Surface ✓

## Warranty Information

Aluminum	15 years
EcoCore HDPE	Lifetime
Hollow PE parts	10 years
Pinewood	10 years
Spare parts guaranteed	10 years

Floors and panel activities are available in two types of material: Waterproof plywood decks thickness 21.5mm from pine and alder wood with anti-slip film on both sides. High Pressure Laminate HPL thickness 17.8mm with slip resistant surface texture according to EN 438-6.

The slides can be chosen in six different colors and three materials: Straight or curved one-piece molded PE slides, made from 33% recycled post-consumer materials in different colours. Combined EcoCore™ sides and stainless-steel. Full stainless steel in one piece design for more vandalism proof solutions.

# Sustainability Data

KPL1017

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO <sub>2</sub> e/kg	Recycled materials
	kg CO <sub>2</sub> e	kg CO <sub>2</sub> e/kg	%
KPL101722-0902	738.00	2.74	46.87

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

## Verification of CO<sub>2</sub> calculation of: Play systems

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
