This wildly or mildly spinning piece with its cute rounded design evokes squeals of joy when children rotate again and again. With its easily accessible, tilted spinning bowl it invites children of all abilities and a wide age span to play. The small footprint allows for placing 2-3 Spinner Bowls together, encouraging social play. The variety of play opportunities: sitting in,

on edge of, pushing, pulling or even standing in the spinner bowl makes for a long-time attraction. The tilted bowl allows the child to adjust the spinning speed with its body movements. This trains the logical thinking: to speed up by scooping up or slow down by spreading arms and legs out. Spinner Bowls train the sense of balance, which is mandatory

for concentration skills and the ability to sit still. Pushing or being pushed by others trains social-emotional skills such as turn-taking.

# Spinner Bowl

ELE400024

## Tilted, spinning bowl

**Physical:** the sense of balance and coordination are supported when spinning, effecting the ability to sit still. Muscles are developed when pushing or pulling friends. Can be turned by own body movements or with help. Can be pushed also from a wheelchair position. **Social-Emotional:** cooperation, helping others, turn-taking. **Cognitive:** logical thinking when speeding up or slowing down the spin by either curling up or stretching.

## Deep bowl

**Social-Emotional:** feeling of security when scooping in the bowl. The supportive sides support a wide spectre of mobility impairments due to the height. Inclusive for all abilities.

The Spinner Bowl is made of recyclable PE made from 33% post-consumer materials. The bowl is molded in one piece with integrated metal thread bushings and a water drain hole to ensure high durability in all climates around the world.

Heavy duty engineered bearing system with single row deep groove ball bearings with rubber seals. The fully closed bearing construction is lifetime lubricated and maintenance free.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

|--------------------------|-----------|---|
| Installation Information |           |   |
| Max. fall height         | 100 cm    |   |
| Safety surfacing area    | 9.8 m²    |   |
| Total installation time  |           |   |
| Excavation volume        |           |   |
| Concrete volume          |           |   |
| Footing depth (standard) |           |   |
| Shipment weight          |           |   |
| Anchoring options        | In-ground | ✓ |
|                          | Surface   | ✓ |
| Warranty Information     |           |   |
| Bearing construction     | 5 years   |   |
| Hardware                 | 10 years  |   |
| Hollow PE parts          | 10 years  |   |
| Hot dip galvanised steel | Lifetime  |   |
| Spare parts guaranteed   | 10 years  |   |

The Spinner Bowl is available in six different colour options.

The sand colored variant is made of rotomolded stone mixed PE made from 33% post consumer materials with a non skid surface texture. Minor differences in the stone mix visuality of the material are to be expected.

GreenLine versions in teal color are designed with molded PE parts which consist of 33% recycled post-consumer ocean waste. Ocean waste is collected from the maritime industry, such as fishing nets, ropes and trawls.

# Sustainability Data

ELE400024

| Cradle to Gate A1-A3 | Total CO <sub>2</sub> emission | CO <sub>2</sub> e/kg    | Recycled materials |
|----------------------|--------------------------------|-------------------------|--------------------|
|                      | kg CO <sub>2</sub> e           | kg CO <sub>2</sub> e/kg | %                  |
| ELE400024-3717LG     | 55.26                          | 2.99                    | 40.12              |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

### Verification of CO<sub>2</sub> calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO<sub>2</sub> calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
