Item no. NRO616-1001

General Product Information

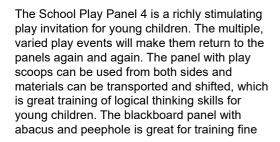

Dimensions LxWxH 321x211x83 cm Age group 1+

Play capacity (users)

Color options

motor skills and invites playing school. Dramatic play is a great stimulation of language and communication skills. The Tic-Tac-Toe panel appeals to older children who train strategic thinking when playing games with rules. The Climb through and See through panel presents two very popular activities: crawling through and peeping through. The cross-coordination trained when crawling and

climbing is a fundament for children's understanding of space, shapes and measures and ultimately mathematics. The bubble window distorts back children's voices when they speak into it. That will keep them coming back repeatedly, for more fun games with friends.

NRO616

Sand scoops

Physical: hand eye coordination and push-

pull movements. Social-Emotional: invites

cooperation due to the two-sidedness and provides for parallel play. Cognitive: logical thinking: cause and effect understanding when running scoops in grooves or shifting materials from scoop to scoop. Creative: shifting scoops, creating new scoop positions.

123 456 789

Number panel

Cognitive: stimulates understanding of numeracy and mathematics.

Tic-tac-toe panel

left in new positions.

Social-Emotional: stimulates communication

and turn-taking skills. Cognitive: support

Creative: leaving marks when tumblers are

rules understanding, strategic thinking.

Crawl-through hole

through the hole.

Physical: the hole allows for climbing and

awareness. Social-Emotional: cooperation

and turn-taking when passing one another. Cognitive: understanding space, shape and measures when seeing if the body can fit

coordination, proprioception and spatial

crawling through, developing cross

Peepholes

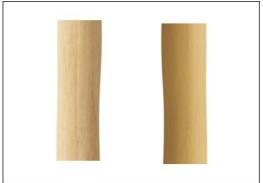

Social-Emotional: invites parallel play, looking through holes at each other from each side. Cognitive: understanding of object permanence.

NRO616

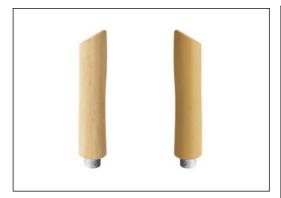

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The Robinia wood can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.

There are Multiple footing options for all products: Surface anchoring with steel footings and expansion bolts. Wood in-ground or steel in-ground footings.

	Item no. NRO616-1001				
Installation Information					
	Max. fall height		0 cm		
	Safety surfacing area	21	.3 m²		
	Total installation time		8.0		
	Excavation volume	0.6	33 m³		
	Concrete volume	0.0	00 m³		
	Footing depth (standard)	10	0 cm		
	Shipment weight	27	77 kg		
	Anchoring options	In-ground	~		
		Surface	~		

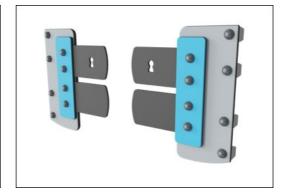

Warranty Information EcoCore HDPE Lifetime Hot dip galvanised steel Lifetime Movable parts 2 years Robinia wood 15 years Spare parts guaranteed 10 years

Panels of 19mm EcoCore[™]. EcoCore[™] is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

The Xylophone music panel consist of HDPE material in 19mm EcoCore™ made with +95% recycled post-consumer material from e.g., food packing waste in both core and colorful outer layer. The pipes are made of die cast aluminum specifically alloyed for outdoor environments. The percussion panel consist of 2 Conga Drums with PP tubes and top in colored ABS.

Membranes consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance. Embedded is a four-layered armouring made of woven polyester. The armouring and the two surface layers result in a total thickness of 9 mm.

Sustainability Data

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
