The Music Play Panel 2 attracts children immensely with its colorful combinations of rhythm, sounds and tones. They will come back again and again to be part of creative play, on their own or with friends and teachers. The music pipes offer sensory variations with a tonal sound outcome. Children train the hand-eye coordination which is crucial to control of

movement and e.g. handwriting. The black rubber flaps can be plunked, or pipes beaten and tunes created. This trains logical as well as creative thinking and invites cooperation and social play. The Percussion Panel is an immense play invitation for children: The drums can be played alone or together. There is room for many users to congregate around them.

This encourages social interaction and co-creation when drumming rhythms and singing along. It also stimulates cognition and creativity as children create rules and rhythms together or individually. The play panel is high to make it inclusive of more ages and abilities.

## Drums

**Social-Emotional:** cooperation and co-creation, parallel and group play. **Cognitive:** cause and effect understanding when creating sounds, supports a sense of rhythm, essential for pre-reading. **Creative:** creating and leaving a mark with sound.

## Music tubes

**Social-Emotional:** invite social interaction and co-creation for more children, on both sides. **Cognitive:** understanding of cause and effect when striking tubes. **Creative:** the creation of different intensity and tonality stimulates creative skills.

## Two sides

**Social-Emotional:** the low height and the transparency of the panel invites cooperation and communication.

## Tonality

**Cognitive:** creative thinking when combining tones into tunes. **Creative:** composing new tonal combinations stimulates creativity.

## Rubber flaps

**Social-Emotional:** the two rows of flaps invite cooperation and co-creation. **Cognitive:** 'Cause and effect' understanding when discovering sound from flaps hitting tubes.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
