ELE400065

Item no. ELE400065-3717DT

General Product Information

Dimensions LxWxH 3'11"x4'0"
Age group 5 - 12
Play capacity (users) 8
Color options

WOW, a spinning TIPI! The whimsical shapes of the TIPI carousel with top brace attracts children in its own right. And they will play here again and again, thanks to the multifunctionality of the slick TIPI. Responsive to children's movements, the TIPI spins when pushed or pulled. Apart from being a fun negotiation and turn-taking game, the pushing

and pulling build muscles and cardio. In the TIPI children can lie, sit or stand with the support of the side bars or the top frame. This welcomes children with mobility disabilities to be part of the play, too. The spinning movement trains the sense of space and balance. The sense of balance is fundamental to all other motor skills and is important for

motor control, for instance being able to sit still or cycle securely, without falling. The TIPI facilitates universal, inclusive play: It's good fun!

ELE400065

Three side bars

Physical: support for gripping, pushing and pulling, training muscles. Back support for seating, also for children with mobility impairments or disabilities. Social-Emotional: supports seated positions for more children. Facilitates social interaction between inside and outside, when children spin each other. Facilitates use from outside of Tipi Carousel, and turn-taking.

Rotation

Physical: pushing or pulling into motion, children use their muscle strength and their cardio. The rotation develops the sense of balance and space when enjoying the ride. Social-Emotional: listening and negotiating how slow or fast to go, children develop empathy and cooperation skills.

Shallow entry rim

Physical: support for entering and staying in when spinning. Eases entry for children with a range of mobility abilities. Social-Emotional: feeling of security when children lie or sit in Tipi Carousel. Provides a secure feeling for those seated when spinning.

Top frame

Physical: support for standing, gripping, and training the sense of balance when spinning. Social-Emotional: supports standing for more children at a time. Adds support and a feeling of security for children with mobility impairments or disabilities.

Physical: allows for more body positions: sitting, lying, standing, which facilitates use for children with physical disabilities. **Social-Emotional**: facilitates many children using the Tipi Carousel simultaneously, supporting cooperation and turn-taking.

ELE400065

10 Years

The bowls are made of recyclable PE. The bowls are molded in one piece with integrated metal thread bushings and water drain hole to ensure high durability in all climates around the world.

Top brace is made of welded steel. The steel is hot dip galvanized inside and outside with lead free zinc and with outside powder coated top-finish.

Heavy duty engineered bearing system with single row deep groove ball bearings with rubber seals. The fully closed bearing construction is lifetime lubricated and maintenance free.

Item no. ELE400065-3/1/DT				
Installation Information				
Max. fall height		1'11"		
Safety surfacing area		380ft²		
Total installation time		2.7		
Excavation volume	0.	.58yd³		
Concrete volume	0.	41yd³		
Footing depth (standard)		3'3"		
Shipment weight	1	73lbs		
Anchoring options	In-ground	~		
	Surface	~		
Warranty Information				
Bearing construction	5	Years		
Hollow PE Parts	10 Years			
Hot dip galvanized steel	Lifetime			

Itom no ELE400065 2717DT

Tipi Carousel has unique water drain system. Water drains automatically - assuring that carousel is always dry and ready to use. The water drain is covered by stainless steel strainer.

The sand colored variant is made of rotomolded stone mixed PE made from 33% post consumer materials with a non skid surface texture. Minor differences in the stone mix visuality of the material are to be expected.

GreenLine versions in a dark teal color are designed with molded PP parts which consist of 25% recycled post-consumer waste and 75% virgin material. GreenLine ensures the lowest possible CO2e emission factor.

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025 Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO_2 calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.

Publication date: 30. October 2023

Cradle to Gate A1-A3	Total CO ₂ emission	CO₂e/kg Recycled materials	
	kg CO₂e	kg CO₂e/kg	%
ELE400065-3717DT	231.59	2.86	42.64

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
