

# Combi 4 Robinia

FRO104

**KOMPAN**  
Let's play

Compact and complete street workout and calisthenics combination for training and competition. It features an incline bench, parallel bars, push up bar, decline press, Swedish ladder, human flagpole and pull up station. Seven workout stations in one, and all within only 41 m<sup>2</sup>. The 138cm wide pull up bars are designed to give plenty of space for

dynamic exercises and promote sideways exercises such as the typewriter pull up. The wide bars also allow for users to do pull ups next to each other and thereby compete or motivate each other.

The Robinia bars are made from de-barked and sap free Robinia trunks in various dimensions. Robinia is a native European

wood species with high strength and natural durability in various climatic conditions. KOMPAN uses wood from FSC-certified sources.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
