

Scout

NAT524

Item no. NAT524-0912

General Product Information

Dimensions LxWxH	357x384x267 cm
Age group	4+
Play capacity (users)	8
Colour options	●

The Scout is a fun, dense play event for school-age children. It consists of a beautiful combination of natural pinewood, steel, and curved design. With its world explorer look, it attracts children back for more play over and over. The challenging climbs, up to the slide train children's balance, cross-coordination, and proprioception. The Jacob's Ladder has a

special feature in the twist of the 3rd step: this makes a change of foot position necessary to go further. The mastery of this proprioceptive action is only possible for children of a certain age. So there are ways up and around the Himalaya for bigger and lesser daredevils. The motor skills trained are important for children's physical confidence and security in moving, for

instance in the street. The sense of balance and space are trained with whizzing down the slide. The sense of balance is fundamental for all other physical skills.

Scout

NAT524

Inclined platform

Physical: trains the sense of balance and space. **Social-Emotional:** the room allows for more children being together

Climbing semicircle

Physical: develops children's cross coordination, eye-hand coordination and muscle strength when climbing up or down.

Slide

Physical: develops spatial awareness, sense of balance and trains core muscles when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

Jacob's ladder

Physical: cross coordination and spatial awareness as well as upper body muscles when hanging with arms. **Social-Emotional:** turn-taking and cooperation. **Cognitive:** logical thinking when going from 2nd to 3rd step, changing feet.

Scout

NAT524

Posts and boards are made of pine wood from sustainable European sources. The wood is pressure impregnated Class 3 with Tanalith E. On request it can be supplied as FSC® Certified (FSC® C004450).

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco-friendly material, which is not only recyclable after use but also consists of a core produced from 100% recycled material.

The steel surfaces are hot-dip galvanised inside and outside with lead-free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The post end caps are made of injection molded high quality nylon (PA6). PA6 has good wearing and impact strength and is UV stabilized. The end caps protects vertical placed posts to ensure long lifetime.

The slide is manufactured from high-quality stainless steel AISI 304. The steel is cleaned by a total pickling process after manufacturing to ensure smooth and clean gliding surfaces.

Item no. NAT524-0912

Installation Information

Max. fall height	223 cm
Safety surfacing area	33.4 m ²
Total installation time	10.5
Excavation volume	0.66 m ³
Concrete volume	0.15 m ³
Footing depth (standard)	90 cm
Shipment weight	392 kg
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

EcoCore HDPE	Lifetime
Galvanised Steel	Lifetime
Pinewood	10 years
Spare Parts Guarantee	10 years
Stainless Steel Slide	10 years

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NAT524-0912	614.27	2.17	41.79

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
