M411

Wow! This toddler-sized Flower House is rich in activities that attract and retain young children in play. The varied play elements support the child's social-emotional, cognitive, and creative development. The range in size of openings and semi-open sides encourage play cooperation from the inside to the outside, increasing the number of children who can

participate in a way that makes sense. There are a number of manipulative play items that respond to the actions of the child: the turning desk, spheres running in grooves, and door lock. Children begin to understand and practice causal relationships when items respond to the child's actions. This understanding motivates talking and stimulates language development.

## Theme

**Cognitive:** suggests a theme and supports dramatic play, which stimulates language and communication skills.

## Desk

**Social-Emotional:** fine meeting place and a space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

## Themed element

**Cognitive:** sets a tangible theme and so spurs dramatic play. Dramatic play is a great trainer of language skills.

## Turn disk and sound creator

**Social-Emotional:** spurs group play and conversations with its dual-sidedness.  
**Cognitive:** logical thinking, understanding numeracy. **Creative:** creating sounds when the spheres run through grooves.

## Play sphere

**Social-Emotional:** can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

## Megaphone

**Social-Emotional:** inspires communication and turn-taking skills. **Cognitive:** distortion of sound evokes curiosity and stimulates an understanding of cause and effect.
