Wow! The Jumbo Bench is much more than meets the eye. This playful structure supports social-emotional as well as physical skills in young children. The considerate design helps children to stay and play, which provides developmental benefits and great fun. In addition to being a place to sit alone or talk with friends, the Jumbo will encourage

conversations concerning the theme of flying. Sitting with friends supports social-emotional development, and the life skills of interpersonal communication. The imaginative theme play supports cognitive development and thinking skills. The windows of the plane enhance this by providing children with opportunities to play peek-a-boo and other simple games. For

younger children, pulling themselves up to stand supports physical development.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
