This toddler-sized labyrinth will provide hours of fun for young children. This carefully designed structure offers play opportunities in all areas: physical, social-emotional, cognitive, and creative. Children will enjoy moving their bodies in and out as well as around and around the structure. This is welcomed by the thoughtfully placed rubber knee-protectors

placed in the crawl-through openings. These support important physical as well as spatial skills. The open 360 design also supports cooperation and parallel play, which develops the social-emotional skills of the child. A rich variety of open ended sensory elements: mega-phone, bubble window, play spheres and play rings stimulate the understanding of cause

and effect, through movement and sound, hugely supporting cognitive development in they young child.
