

Villa Playhouse

M7000

With its multitude of benches, tables and play surfaces this playhouse certainly lives up to all modern requirements. The open ends and walls widen the play space, making room for lots of children to play from the inside and outside. There is even a corner bench on the veranda that is big enough to allow an adult to join in the world of Let's Pretend. There are

many elements that promote social interaction including the desks, porch seat and the split level table on the outside gives an extra dimension to the game. The red house encourages children's to role play and the manipulative elements that can be shifted and turned stimulate the understanding of cause and effect and the child's cognitive

development.

All floors are made of High Pressure Laminate HPL with a thickness 17.8mm and non skid surface texture according to EN 438-6. KOMPAN HPL has high wearing strength to ensure long lifetime in all climates.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

The control unit placed on the front of the play house is turn able to different positions with a click sound. It's designed to function as a train station when installed together with M525+M526 Train & Wagon.

KOMPAN GreenLine versions are designed with ultimate environmentally friendly materials with lowest possible CO2e emission factor such as EcoCore™ panels of +95% post consumer recycled ocean waste.
