

Steel Swing H:2.0m, Anti-wrap

KSW92002

Of all the play activities, swinging high is a favourite: children love it, as it is extremely thrilling and can be done individually and together. This swing set supports the joy of doing the same thing at the same time, featuring two similar swing seats. The seats are shaped with a slight curve in the middle to facilitate the secure seat position of a wide age

span. The Anti-Wrap system makes the play go on and on, as the seat will never be wrapped around the upper beam. Swinging, apart from being great fun, trains the children's ABC: agility, balance, and coordination as well as their spatial awareness. These motor skills are crucial to being able to judge distances in traffic safely. Swings allow for standing sitting, laying,

and not least, jumping off. Apart from the motor skills training, this trains the arm, leg, and core muscles. The jumping off builds bone density; the majority of which is built up during the first years of life.

Item no. KSW92002-0910	
General Product Information	
Dimensions LxWxH	360x161x205 cm
Age group	2+
Play capacity (users)	2
Colour options	

Steel Swing H:2.0m, Anti-wrap

KSW92002

Two single swing seats

Physical: balance, coordination and spatial awareness are trained when swinging. All necessary when judging distances and managing traffic safely. **Social-Emotional:** parallel play invites cooperation and consideration. **Cognitive:** 'Cause and effect' understanding, managing rhythm and thinking skills for younger children when swinging. Rules games for bigger children.

Vertical posts, swing frames end connectors and crossbeams can either be hot-dip galvanised steel or powder-coated on a pre-galvanised steel base. S

KOMPAN's swing hangers are heavy-duty and designed with stainless steel and anti-twist functions. The hangers attach to the cross beam on a welded bracket with two bolts. The bearings are embedded with silicone lubricant and need no further lubrication; ensuring low maintenance.

The standard seats of KOMPAN swings are engineered for maximum safety and durability. The seat two component seat with a PP inner core and outside rubber is produced in one operation. The seats are available with swing chains of either hot-dip galvanised steel or stainless steel for all swings heights.

The swing hangers are made of high-quality UV-stabilised nylon (PA6) housing with integrated lifetime sealed ball bearings. The adjustable chains are fixed by a stainless steel hook with a theft-proof snake-eye bolt which is manufactured within an anti-twist house. All seats are fixed with two chains and are available with either standard or anti-wrap suspension.

KOMPAN's bird's nest seats have been designed to be light in weight and compliant with global safety standards. The soft, shock-absorbent bumpers has a non-slip surface, making the swing seat extremely user friendly. You can choose between a rope version with reinforced PA rope or a moulded PE version.

KOMPAN has a range of uniquely designed seats for toddlers which includes; A rubber baby seat, a toddler PUR seat with four chain suspension for easy movement and cradle seat. Additional you can select the You & Me swing seat which is suitable for adult and child which allows two users to swing together while facing each other.

Item no. KSW92002-0910

Installation Information

Max. fall height	120 cm
Safety surfacing area	21.5 m ²
Total installation time	4.6 hours
Excavation volume	1.12 m ³
Concrete volume	0.00 m ³
Footing depth (standard)	90 cm
Shipment weight	195 kg
Anchoring options	In-ground ✓

Warranty Information

Chains	10 years
Spare Parts Guarantee	10 years
Steel post HDG	Lifetime
Swing Hangers	5 years
Swing Seat	10 years

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
