The Super Combi 2 offers a perfect blend of high, low, and dynamic elements for a comprehensive workout experience. Overhead activities include a snake bar, overhead ladder, and rings, which engage the upper body and improve coordination. The climbing rope and target shoot add fun and functional challenges, while the Mag Bells provide dynamic strength

training. The universal parallel bars encourage exercise creativity and are accessible for wheelchair users. Integrated step platforms provide an added layer of versatility, supporting strength, jumping, and cardio exercises. This site is ideal for functional training, offering something for everyone, regardless of ability or fitness level.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
