

Chelsea Overhead Ladder

PCX802

Item no. PCX802-0905	
General Product Information	
Dimensions LxWxH	4'0"x7'6"x6'8"
Age group	5 - 12
Play capacity (users)	4
Color options	

The CHELSEA Inclined Overhead Ladder, also known as monkey bars, is a favorite activity among children. They keep trying to manage the "walking", hand over hand, from one end to another, which ensures holding power. Besides being great fun the inclined overhead ladder is perfect for developing physical skills, such as overall body control, cross-body coordination,

proprioception and upper body strength. It supports training of many different muscle groups including arms, shoulders and abdominals. To do the "walking" by swinging from one bar to the next is challenging and requires a lot of courage. Trying again and again develops children's overall body control and self regulation, important for their

emotional development, such as their self esteem."

Chelsea Overhead Ladder

PCX802

Overhead ladder

Physical: develops children's upper body muscles and arm strength, cross coordination and spatial awareness. This is especially important due to sedentary lifestyles and back-pain in children. **Social-Emotional:** chill and socialize on top of the overhead ladder, training cooperation.

Chelsea Overhead Ladder

PCX802

All steel components are made of high quality materials. The posts have an alloy with improved tensile and yield strength according to the NYCP material specification. The painted aluminum post caps are riveted to the top of the post.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

Item no. PCX802-0905	
Installation Information	
Max. fall height	6'1"
Safety surfacing area	272ft²
Total installation time	4.1
Excavation volume	0.14yd³
Concrete volume	0.07yd³
Footing depth (standard)	2'9"
Shipment weight	317lbs
Anchoring options	In-ground ✓
Warranty Information	
EcoCore HDPE	Lifetime
HDG post	Lifetime
HPL decks	15 Years
Ropes & nets	10 Years
Spare Parts Availability	10 Years

Elevated activities 0	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	1	1
Required	0	1	1

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
PCX802-0905	319.51	2.79	47.89

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
