

Blazer

ELE400021

Item no. ELE400021-3218	
General Product Information	
Dimensions LxWxH	7'6"x6'7"x2'7"
Age group	2 - 5
Play capacity (users)	6
Color options	 

The whimsical shapes and colors of the Blazer evoke children's curiosity: they want to try it out. The vibrant colors are consciously chosen to support 3+ year olds in their developing understanding of rules play because they can choose their color and make a game of it. The springs make it possible to rock individually or in even or uneven numbers, too. The platform

in the middle supports lying and standing. The platform can be used to start games or as a meeting point. Rocking on the Blazer, especially when standing on the middle platform, trains the child's sense of space and balance. These are crucial as a basis of navigating the world securely. Good mastery of space and balance supports other skills such

as being able to sit still. When the sense of balance is not developed, children cannot focus on anything else, so it is very important to develop the sense of balance in the early years. The Blazer is a fun, playful way to do that.

Blazer

ELE400021

Center platform with groove

Physical: trains balance and space when standing, using leg and core muscles. Jumping off strengthens bone density. Facilitates sitting and lying, allowing for users with disabilities. **Social-Emotional:** provides an inclusive space. Point for gathering and for caregivers assisting. Teamwork and socializing when rocking together. **Cognitive:** games can occur standing or sitting inside and outside groove, or marble running in groove when riding.

Color variation

Cognitive: supports understanding rules and rules games: children will find reasons for choosing one or the other color.

Wacky body

Physical: hollow seat and sturdy foot and hand support provide an intense ride, developing arm and leg muscles as well as the senses of space and balance.

Triple wacky bodies

Physical: allow for wild rides with others, supporting sense of balance and space as well as leg and arm muscles. **Social-Emotional:** cooperation when coordinating the movements of the three pods. **Cognitive:** understanding of cause and effect when coordinating movements with others.

Spring base

Physical: rocking promotes sense of balance and space, both important in for navigating the body confidently in space. **Social-Emotional:** consideration of others when rocking.

ELE400021

KOMPAN Springs are made of high quality spring steel according to EN10270. The springs are cleaned by phosphating before they are painted with an epoxy primer and a polyester powder coating as top finish. The springs are fixed by unique anti pinch fittings for maximum safety and long lifetime.

Handles and footrests are made with a molded PP insert and an outer layer of soft TPV rubber. The handles and footrests are attached to the pipe with a galvanized steel inlay to ensure strength and durability.

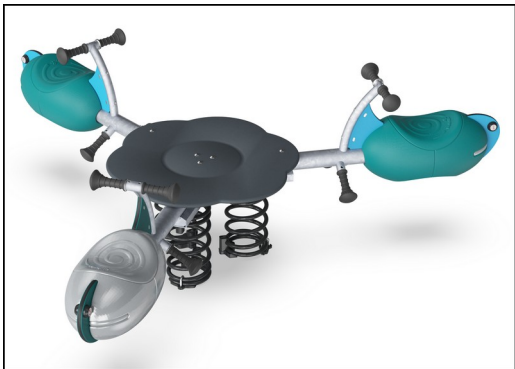

The middle plate is made of HPL with a thickness of 17.8mm. It has a very high wearing strength and a unique KOMPAN non skid surface texture.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

The seat is made of recyclable PE and molded in one piece with a minimum 5mm wall thickness. PE has high impact resistance across a wide temperature span which ensures vandal resistance in all locations.

KOMPAN GreenLine versions are designed with the most environmentally friendly materials with the lowest possible CO2e emission factor such as EcoCore™ panels of 100% post-consumer recycled ocean waste.

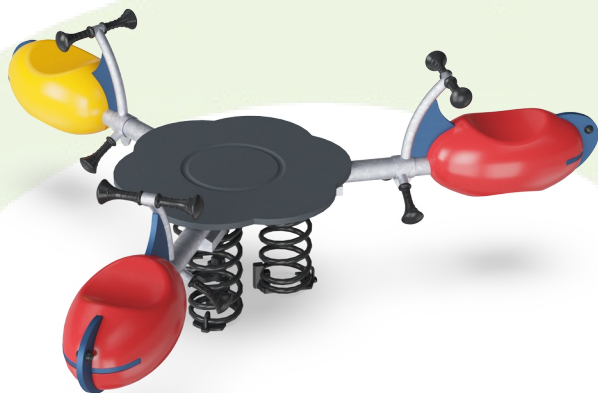

Item no. ELE400021-3218	
Installation Information	
Max. fall height	3'3"
Safety surfacing area	277ft²
Total installation time	4.3 hours
Excavation volume	0.86yd³
Concrete volume	0yd³
Footing depth (standard)	1'5"
Shipment weight	407lbs
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
Hollow PE Parts	10 Years
HPL platform	15 Years
Spare Parts Availability	10 Years
Springs	5 Years
Stainless steel components	Lifetime

Elevated activities 0	Accessible elevated activities	Accessible ground level activities	Accessible ground level play types
Present	0	1	1
Required	0	1	1

Sustainability Data

ELE400021

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
ELE400021-3218	366.02	2.66	36.36

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
