

Little Spider Swing

NRO920

Item no. NRO920-1001	
General Product Information	
Dimensions LxWxH	289x106x157 cm
Age group	2+
Play capacity (users)	6
Colour options	

The Little Spider Swing will attract children again and again. It offers a lot of play in a little space. Swinging the bird's nest seat develops children's sense of balance and coordination, which are fundamental for all other motor skills. There is also a cognitive aspect to this type of play, as toddlers develop the concept of cause and effect related to their bodies and objects.

The nest seat can fit multiple users, making it a social experience where children can play together and cooperate. The seat caters for all abilities and most ages allowing it to be a shared experience. Pushing each other and taking turns teaches children important social-emotional skills. It can also be used individually for a more relaxing swing. It is possible to lie,

sit and stand on the seat, which all support the development of arm, leg, and core muscles as well as building bone density when jumping off.

Little Spider Swing

NRO920

Bird nest swing

Physical: balance, coordination and spatial awareness are developed when swinging. The swinging movement trains the arm, leg and core muscles. **Social-Emotional:** the spacious seat allows for many children standing, lying, seated together and is inclusive for all. **Cognitive:** 'Cause and effect' understanding, rhythm and thinking skills are developed in younger children.

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

KOMPAN's bird's nest seats have been designed to be light in weight and compliant with global safety standards. The soft, shock-absorbent bumpers has a non-slip surface, making the swing seat extremely user friendly. You can choose between a rope version with reinforced PA rope or a moulded PE version.

The swing hangers are made of stainless steel brackets and can move over two axis. The flange bearings are silicone enriched to make the suspension maintenance free. The connection to the rope is made with stainless steel chain.

All Robinia products can be supplied as untreated raw wood or painted with a brown coloured transparent pigment that maintains the golden wood colour of the wood.

The swing seats can be customised to your preference and personalised with a variety of Kompan colours for both the Shell and Rope versions.

Item no. NRO920-1001	
Installation Information	
Max. fall height	85 cm
Safety surfacing area	11.3 m²
Total installation time	2.9 hours
Excavation volume	0.46 m³
Concrete volume	0.16 m³
Footing depth (standard)	98 cm
Shipment weight	156 kg
Anchoring options	In-ground ✓
Warranty Information	
Galvanised Steel	Lifetime
Robinia Wood	15 years
Spare Parts Guarantee	10 years
Swing Hangers	5 years
Swing Seat	10 years

Sustainability Data

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO920-1001	186.99	1.55	6.82

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
