

Springer Bowl

ELE400066

Item no. ELE400066-12DT

General Product Information

Dimensions LxWxH	306x306x60 cm
Age group	6+
Play capacity (users)	1
Colour options	

The Springer Bowl is a wildly attractive playground activity that children will return to again and again. With its easily accessible bowl and seating height it invites children of all abilities and a wide age span to play. Children rock the Springer Bowl using their leg, arm and core muscles to coordinate movements and set it into motion. The spring will also move when

children use their upper bodies solely. Movement response is one of the greatest play sensations there are. Apart from the fun, this trains the sense of balance which is fundamental to all other physical mastery. Ultimately, the sense of balance is important to the child's ability to sit still and concentrate. The rocking response to movement trains the

understanding of cause and effect in younger children.

Springer Bowl

ELE400066

Springer Bowl

Physical: response to movements adds to spatial awareness and sense of balance. These are fundamental motor skills that help childrens' ability to sit still on a chair. Muscles are developed when pushing or pulling friends. **Social-Emotional:** cooperation, helping others, turn-taking. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

Deep bowl

Social-Emotional: feeling of security when scooping in the bowl. The supportive sides support a wide spectre of mobility impairments due to the height. Inclusive for all abilities.

Rocking spring

Physical: response to movements adds to spatial awareness and sense of balance which are fundamental motor skills. **Cognitive:** trains the understanding of cause and effect: when I move my body, the spring responds with movement.

The Spinner Bowl is made of recyclable PE made from 33% post-consumer materials. The bowl is molded in one piece with integrated metal thread bushings and a water drain hole to ensure high durability in all climates around the world.

GreenLine versions in teal color are designed with molded PE parts which consist of 33% recycled post-consumer ocean waste. Ocean waste is collected from the maritime industry, such as fishing nets, ropes and trawls.

The Springer Bowl is available in four different colours. Yellow and lime green colours for classic playgrounds, Dark teal for GreenLine and beige for natural playgrounds.

KOMPAN's springs are manufactured from high-quality spring steel. The springs are cleaned by phosphating before being painted with epoxy primer and polyester powder coating. The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

The springs are fixed by unique anti-pinch fittings for maximum safety and longevity.

The sand coloured variant is made of rotomoulded stone mixed PE material with non-skid surface texture. Minor differences in the stone mix are to be visually expected.

Item no. ELE400066-12DT

Installation Information

Max. fall height	50 cm
Safety surfacing area	7.4 m²
Total installation time	1.2 hours
Excavation volume	0.29 m³
Concrete volume	0.00 m³
Footing depth (standard)	60 cm
Shipment weight	36 kg
Anchoring options	Surface ✓ In-ground ✓

Warranty Information

Hardware	10 years
Hollow PE parts	10 years
Galvanised Steel	Lifetime
Spare Parts Guarantee	10 years
Springs	5 years

Sustainability Data

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Freestanding play equipment

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
