What child doesn't want to have a real castle to visit and play on? This is a huge three-towered design for young princes, princesses, knights, and would-be bandits! The Large Tall Castle allows for a range of ages to play together and invites the whole family for a royal play day. It has ground and elevated level play areas, barred windows, and cannons, just like a real

castle. There is the climbing wall, rope accesses, net bridges and climbers for adventurous play, and two giant tube slides. Be lost in a medieval world within this colourful, organic timber structure. The Robinia timber is durable, natural and gives children a nature inspired theme that can blend into, or stand out from your surrounding landscape.

Height

Social-Emotional: children develop courage and self-regulation when being up high. This positively affects self-confidence.

Hammock

Physical: coordination and sense of balance when swaying. **Social-Emotional:** meeting, pushing friends gently back and forth, turn-taking.

Long tube slide

Physical: sliding develops spatial awareness and the sense of balance. **Social-Emotional:** height ensures extra speed and thrill. Stimulates empathy by turn-taking and consideration of others.

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. The hand-holds on top ease entry into platform. **Social-Emotional:** the inclination makes climbing feel secure, especially for younger children.

Sky tunnel

Physical: being up high in a transparent net develop the sense of space and balance, which is fundamental in navigating the world securely. **Social-Emotional:** children develop courage, self-confidence, consideration and turn-taking. Passing other children takes cooperation and teaches turn-taking skills.

Draw bridge area

Physical: varied rope rails offer levelled challenge of balance and spatial awareness as well as arm, leg and core muscles. **Social-Emotional:** the two rope rails support cooperation, parallel play and positive competition by offering varied difficulty levels in entrance.

Curly climber

Physical: supports coordination going down, sense of balance when rotating and arm muscles for holding tight. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** logical thinking when placing arms and legs right for rotating downwards.

All organic Robinia products by KOMPAN are made of Robinia wood which is sourced from sustainable plantation farms. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water-based, which is environmentally friendly and has excellent UV resistance. The paint is compliant with Australian Standards.

The Robinia products come in a number of standard colour options. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand.

Curved and straight stainless-steel tunnel slides are supported by multiple steel rods to a centre steel post. KOMPAN tunnel slides have been designed with a perfect curve and inclination for a playful ride.

The wireframe tunnel is made from hot-dip galvanised high-quality steel. Corocord 16mm ropes are special 'Hercules'-type with galvanised four-stranded steel wires and a steel wire core. Each strand is tightly wrapped with PES yarn, which is then melted onto each individual strand.
