With RUMBA comes endless possibilities to realise seating in a customised design for all outdoor environments. RUMBA is the most flexible way of marrying seating solutions to the environment, in perfect harmony - geometry meets geography. Built around simple circles and curves, they can be adapted to provide custom-built twists and turns. The natural

impregnation of resins makes the larch wood extremely durable and the best choice for furniture in public spaces. The standard available benches and tables can be dressed up with back support, armrests, tables etc. and linked together into tailored solutions for the individual location.

Boards are made of ash wood from sustainable European sources. The ash wood is thermo treated according to CEN/TS 15679, durability class 2 according to EN350-2.

Bench is made of pine wood from sustainable European sources. The wood is pressure impregnated Class 3 with Tanalith E.

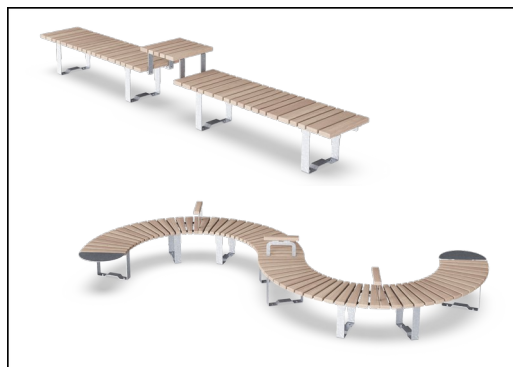

The steel's inside surfaces are hot-dip galvanised, and the outside with lead-free zinc. Galvanisation has excellent corrosion resistance within outdoor environments and is low maintenance.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
