The lovely Red Firetruck is a magnet for dramatic play scenarios for all. It will attract children again and again. The rich variety of tactile details support the fire engine play, encouraging children to explore, imagine play stories and cooperate on them. This all stimulates children's vocabulary and their ability to socialize, negotiate and turn-take. The

tactile activities are both inside and outside the truck, and the accessibility of the steering wheel as well as the efficient loop of the inclined climbing wall and slide makes it easy for young children and children with mobility issues to enter the platform and slide to the ground, with or without assistance. Sliding is a fine training of essential muscles and motor

skills: trunk stability and the senses of balance and space are trained when children slide. All in all, children will love this unit and its appealing theme and play activities.

Panelen van 19mm EcoCore™. EcoCore™ is een uiterst duurzaam, milieuvriendelijk materiaal. Het is recyclebaar na gebruik en gemaakt van +95% gerecycled post-consumer materiaal van voedselverpakkingsafval.

Main posts with hot dip galvanized steel footing are available in different materials: Pre-galvanized inside and outside with powder coated top finish steel posts. Lead free aluminum with color anodized top finish. TexMade posts of 95% post-consumer recycled PE and textile waste.

Alle platformen worden ondersteund door speciale, koolstofarme profielen met meerdere bevestigingsopties. De grijsgekleurde, gegoten PP platformen zijn gemaakt van 75% post-consumer materiaal en zijn voorzien van een antisliptextuur.

De glijbanen zijn beschikbaar in zes verschillende kleuren en drie materiaalsoorten: Rechte of gebogen PE glijbanen, uit één stuk gegoten, gemaakt van 33% gerecycled post-consumer materiaal. Gecombineerd, met EcoCore™ zijwanden en RVS. Of volledig in RVS en uit één stuk, voor vandalismebestendiger oplossingen.

KOMPAN GreenLine uitvoeringen zijn gemaakt van uiterst milieuvriendelijke materialen met de laagst mogelijke CO2e emissiefactor. TexMade staanders, EcoCore™ panelen van 95% post-consumer gerecycled afval en gegoten PP platformen.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
