Climbing supports cross-coordination, which supports the brain's

readiness for reading. The open spaces at elevation will also encourage children to socialize. The different options for sliding to the ground adds to the thrill. Sliding develops the child's trunk stability and sense of balance. These are important skills for moving with confidence. The double slide invites social play and inclusive play. Sliding with friends

stimulates cooperation and turn-taking. Children will be delighted by the Sprinter, which encourages healthy outdoor play.
