

Play Tower

PCM100132

This fantastic play tower offers endless fun and helps children develop important skills. Little ones are invited to engage in active play that supports physical development. The stairs provide age-appropriate access to the tower, strengthening leg muscles, while the slide enhances posture and balance. Additionally, the playhouse encourages creative and

imaginative play, with windows that tempt children to seek out their friends from the tower, inspiring pretend scenarios like being in a treehouse or a lookout point. Both active and imaginative play foster creativity and cognitive thinking. The sturdy desk on the side of the structure serves as a social hub for children to meet and create together, enhancing their

social skills. With a variety of activities, this play structure keeps children engaged and eager to return again and again.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

Main posts with hot-dip galvanized steel footing are available in different materials: Pressure impregnated pinewood posts. Pre-galvanized inside and outside with powder-coated top finish steel posts. Lead-free aluminum with color anodized top finish. Greenline TexMade posts of 100% post-consumer recycled PE and textile waste.

All decks are supported by uniquely designed low-carbon aluminum profiles with multiple attachment options. The grey-colored molded decks are made of 75% post-consumer ocean waste PP material with a non-skid pattern and texture surface.

Ropes are made of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester wrapping is inductively melted onto each strand to ensure excellent wear and tear resistance.

Wood version of FSC®-certified (FSC®C004450) pine wood with pressure impregnated base treatment and brown painted top finish. Vertical boards and top ends protected by a unique aluminum profile for high outdoor durability.

Shade sails of commercial 95 high density PE knitted specially for sunshade structures. The sails are treated with UV stabilizers to ensure a long lifetime. The sails are supported by a hot dip galvanized steel frame. Closed sail equipped with an easy take down system.
