

Triple Shifter

M7021

Item no. M702104-3417P	
General Product Information	
Dimensions LxWxH	6'0"x8'0"x7'1"
Age group	2 - 5
Play capacity (users)	7
Color options	

The whimsical Climby Shifter appeals to children's curiosity and draws them back again and again. The variation of climbing and crawling is intense, with easier and harder climbs. The sense of wonder is at work thanks to the conscious color use for the panels: children climb from red or yellow into a new combination of colours. The inclined ground

panel additionally challenges the senses of balance and proprioception constantly. This makes climbing the Climby Shifter great training for the motor skills and muscles: their cross-coordination and sense of balance need to be on the alert. They wide platforms of the Climby Shifter invite breaks and offer roomy resting points. Thanks to the three panels,

children can always find shelter from the wind or the sun. Please notice the fine climbing cleats, added to support all over.

Triple Shifter

M7021

Turning sphere

Cognitive: adds a play destination and stimulates a child's understanding of cause and effect with the rattle sound when the sphere is turned. The smooth surface adds tactile variation. **Creative:** the rattle sound adds a creative element to play.

Crawl-through hole

Physical: the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when passing one another. **Cognitive:** understanding space, shape and measurements when seeing if the body can fit through the hole.

Rope ladder

Physical: cross coordination is supported when children climb the ladder. The climbing also trains leg and arm muscles.

Inclined platform

Physical: trains the sense of balance and space. **Social-Emotional:** adds meeting points.

Teardrop handle

Physical: develops upper body muscles, as when pulling yourself up or hanging in your arms.

Climbing cleat

Physical: placed to support hands and feet when crawling across. They train dexterity, hand and foot strength. **Social-Emotional:** adds the feeling of security, helping children to feel confident in climbing higher.

Triple Shifter

M7021

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

Foot support is made of HPL with a thickness of 17.8mm with a very high wearing strength and a unique KOMPAN non-skid surface texture.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

Item no. M702104-3417P

Installation Information

Max. fall height	4'7"
Safety surfacing area	279ft²
Total installation time	8.6
Excavation volume	1.43yd³
Concrete volume	0.24yd³
Footing depth (standard)	2'1"
Shipment weight	590lbs
Anchoring options	In-ground ✓ Surface ✓

Warranty Information

EcoCore HDPE	Lifetime
Hot dip galvanized steel	Lifetime
HPL decks	15 Years
Ropes & nets	10 Years
Spare Parts Availability	10 Years

Play activities like the turning ball is made of injection molded high quality UV-stabilized nylon (PA6). PA6 has good wearing and impact strength.

Ropes are made of UV-stabilized PA with inner steel cable reinforcement. The rope is induction treated in order to create a strong connection between steel and rope which leads to good wear resistance.

KOMPAN GreenLine versions are designed with the most environmentally friendly materials with the lowest possible CO2e emission factor such as EcoCore™ panels of 100% post-consumer recycled ocean waste.

Sustainability Data

M7021

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
M702104-3417P	420.67	2.03	48.36

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
