Amazing! The lovely Home & Garden with 3 Rooms combination sets the stage for endless hours of dramatic play, social play, and not least play explorations. The thrill of almost getting lost in the different corners is immense for toddlers. The richness of tactile detail supports explorative play and adds to the play duration. The spaces under the box bench, in

the garden and house space, offer graduated play. This makes it possible for every child to find something to play, and it adds to play duration. The transparency of the unit allows children to play from the outside. Outside play is encouraged with many tactile activities that support cooperative play and social development. The manipulatives train cause-

and-effect understanding, too, stimulating logical thinking. The homely themes inspire stories and dramatic play, which supports language development.

## Play sphere

**Social-Emotional:** can be played from both sides, encouraging cooperation. **Cognitive:** cause and effect understanding. **Creative:** leave a mark and place the spheres at different positions.

## Desk with sieve

**Social-Emotional:** children can gather and store materials, cooperate and take a break together. **Creative:** sand can be shifted through the sieve, for understanding of cause and effect and object permanence.

## Flap door

**Physical:** tactile stimulation from leaning the body through rubber doors. **Cognitive:** suggests a theme and supports dramatic play, which stimulates language and communication skills.

## Crawl-through hole with curtains

**Physical:** the hole allows for climbing and crawling through, developing cross coordination, proprioception and spatial awareness. **Social-Emotional:** cooperation and turn-taking when playing with friends on the other side. **Cognitive:** understanding of object permanence: things can disappear without being gone forever – a thrilling insight.

## Bench

**Social-Emotional:** gathering, cooperating or taking a break from play all train social skills.

## Broad table platform

**Physical:** cross coordination and spatial awareness when crawling over and under. This trains secure navigation of space. **Social-Emotional:** space for meeting, resting and socializing. **Cognitive:** dark green horizontal panel and the sand colored vertical panels support the understanding of space.

## Den

**Physical:** crawling through the possible openings trains spatial awareness. **Social-Emotional:** the enclosed space invites social play for two or three children.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

Corocord membranes consist of friction-proof rubberized material of conveyor belt quality with excellent UV resistance. Tested and compliant with REACH requirements for PAH. Embedded is a four-layered armoring made of woven polyester. The armoring and the two surface layers result in a total thickness of 7.5 mm.
