Colour options	 

This simple hut invites younger children who just want to play. The openness allows for a flow of children in and around the space, which is great for 'chasing' and other social activities. Imagination is developed with the simple design, as the hut provides numerous options for inventiveness. The natural Robinia timber provides an organic structure, that can either

blend into or stand out from your surrounds. Children can touch and feel the timber, observing how nature inspiration interacts with the built environment. This hut can also be placed close to other structures due to its ground level play.
