MSC6422

Item no. MSC642200-3717P

General Product Information

Dimensions LxWxH 20'4"x29'7"x13'3"

Age group 2 - 5

Play capacity (users) 34

Color options

WOW! The Story Makers Castle is a true play invitation for all. It hugely appeals to children's dramatic play with its richness of varied, accessible play activities and its courtyard character. The Castle comes with a stage, too, inviting play performances, all stimulating language development and cooperation. The rich variety of physical play: sliding, rotating,

climbing and crawling on varied levels of difficulty adds to the attraction and make children come back again and again. These additionally train e.g. the cross-coordination and sense of balance, important for children's confidence in moving. Thanks to the two-sided panels and themes and the wide accessible stairway, this is play for all, all around the

structure. So the social play invitation is immense. Here all children can meet, greet and make common play stories.

MSC6422

Rock climber

Physical: supports cross coordination and leg, arm and hand strength. Social-Emotional: the incline makes climbing feel safer, especially for younger children.

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. Social-Emotional: empathy stimulated by turn-taking. Cognitive: young children develop their understanding of space, speed and distances when sliding down guickly.

Binoculars

Cognitive: the binoculars set a tangible theme and so spur dramatic play. Dramatic play is great for developing language and communication skills. Creative: the binoculars can be turned in all directions. Looking through them gives a new perspective on the world.

Megaphone Social-Emotional: inspires communication and turn-taking skills. Cognitive: distortion of sound evokes curiosity and stimulates an understanding of cause and effect.

Curly climber

downward.

Physical: coordination and proprioception are

supported when placing arms and legs

placing arms and legs right for rotating

correctly for going down. Sense of balance

Social-Emotional: empathy stimulated by

when rotating. Arm muscles for holding tight.

turn-taking. Cognitive: logical thinking when

Physical: crawling through the possible openings trains spatial awareness. Social-Emotional: the enclosed space invites social play for two or three children.

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. Social-Emotional: room for active breaks and adult helpers. An inclusive space.

MSC6422

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

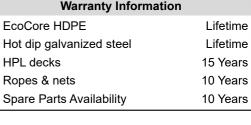

All floors are made of High-Pressure Laminate HPL with a thickness 17.8mm and non skid surface texture according to EN 438-6. KOMPAN HPL has high wearing strength to ensure long lifetime in all climates.

Curved climbing wall is made of Ekogrip® panel that consist of a 15mm thick PE base with 3 mm top-layer of soft rubber with a non-skid effect.

	Item no. MSC642200-3717P						
Installation Information							
	Max. fall height		7'5"				
	Safety surfacing area		961ft²				
	Total installation time		47.7				
	Excavation volume		3yd³				
	Concrete volume		0yd³				
	Footing depth (standard)		2'11"				
	Shipment weight	3513lbs					
	Anchoring options	In-ground	~				
		Surface	~				
Warranty Information							

Itom no MCC642200 2717D

The slides can be chosen in different materials: Straight molded PE slides or combined EcoCore™ sides and stainless steel slide bed t=2mm.

Climbing nets are made of UV-stabilized PP rope with inner steel cable reinforcement. The rope is induction treated to obtain maximum fixation between steel and rope which provides excellent wear and tear resistance. All rope connectors are made of 100% recyclable PA material.

The steel surfaces are hot-dip galvanized inside and outside with lead-free zinc. The galvanization has excellent corrosion resistance in outside environments and requires minimal maintenance.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Themed play systems

Data version no. 2023-10-05

The CO_2 calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Themed play systems" represented by item no.: MSC641100-3717P.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
