| Item no. | |
|-----------------------------|---|
| General Product Information | |
| Dimensions LxWxH | 21'3"x17'4"x14'8" |
| Age group | 5 - 12 |
| Play capacity (users) | 16 |
| Color options |  |

The Cantana is a varied and physically challenging play structure. On ground level, the bench offers a place to socialize and share. The elevated level can be accessed via the accessible stairway or the climbing pole. The accessible stairway makes for easy access while the climbing pole offers more challenge, both training cross coordination. Building up

cross-coordination skills stimulates the brain's cross-modal perception, a fundament for e.g. reading skills. Cross-coordination skills additionally assist the child in navigation the surroundings securely. Two slides lead back to ground level, offering a thrilling feeling of height and speed. Sliding is great for training the sense of balance, which is fundamental for all

other motor skills.

Cantana Peak with Roof

PCE212034

Climbing pole

Physical: cross coordination and muscle strength are trained. **Social-Emotional:** turn-taking and cooperation.

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

Bench

Social-Emotional: invites socializing and cooperation. Allows for a break with friends.

Cantana Peak with Roof

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material.

The roofs are made of KOMPAN EcoCore™ panels and supported by hot dip galvanized steel pipes.

Shade sails of commercial 95 high density PE knitted specially for sunshade structures. The sails are treated with UV stabilizers to ensure a long lifetime. The sails are supported by a hot dip galvanized steel frame. Closed sail equipped with an easy take down system.

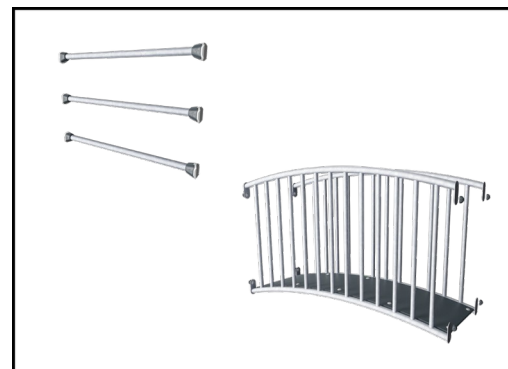

| Item no. | |
|--------------------------|--------------------------|
| Installation Information | |
| Max. fall height | 5'10" |
| Safety surfacing area | 693ft² |
| Total installation time | |
| Excavation volume | |
| Concrete volume | |
| Footing depth (standard) | |
| Shipment weight | |
| Anchoring options | Surface ✓ In-ground ✓ |
| Warranty Information | |
| EcoCore HDPE | Lifetime |
| Hollow PE Parts | 10 Years |
| Post | 10 Years |
| PP Decks | 10 Years |
| Spare Parts Availability | 10 Years |

The main posts are made of high quality pregalvanized steel with powder coated top finish. Post tops are closed with caps of UV stabilized nylon (PA6). The grey colored molded decks are made of 75% post-consumer waste PP material with a non-skid pattern and texture surface. All decks are supported by unique designed low-carbon aluminum profiles with multiple attachment options.

The slides are available in either molded PE in different colors or in full stainless steel AISI304 t= 2mm.

Sustainability Data

PCE212034

| Cradle to Gate A1-A3 | Total CO ₂ emission | CO ₂ e/kg | Recycled materials |
|----------------------|--------------------------------|-------------------------|--------------------|
| | kg CO ₂ e | kg CO ₂ e/kg | % |
| | | | |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025

Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of CO₂ calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.
