Starsurfer is an exciting balancing object and a dynamic bench all in one. With room for 1-4 players it challenges both balancing and social skills. When Starsurfer tilts from one side to the other, each team has to work out its own strategy, based on weight, balance and cooperation. Starsurfer is also a playful resting place that will spice up any conversation with a

lot of laughs, due to its sudden and surprising reactions to movement.

GXY935

Rocking together
Social-Emotional: the possibility of rocking
two together trains cooperation skills.
Consideration of others when rocking.

#### Movable desk

Physical: facilitates standing, sitting and lying, which supports people with disabilities. Trains balance and sense of space when children are standing, using leg and core muscles. Social-Emotional: point for gathering. Supports teamwork and socializing when children are rocking together. Inclusive.

GXY935

The steel surfaces of GALAXY are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Starsurfer is made of medium density PE with excellent impact strength and usable within a large temperature span. Hollow plastic components are made of 100% recyclable PE made from 33% post-consumer materials. Molded in one piece with minimum 5mm wall thickness. The textured surface provides a slip resistant surface for safe play.

The rocking movement over two axis is made by heavy duty scaled ROSTA torsion spring element. The two ROSTA elements works without any noise and are maintenance-free.

Item no. GXY935012-01			
Installation Information			
Max. fall height	7	0 cm	
Safety surfacing area	14.6 m²		
Total installation time		3.2	
Excavation volume	0.50 m³		
Concrete volume	0.00 m³		
Footing depth (standard)	45 cm		
Shipment weight	7	'1 kg	
Anchoring options	In-ground 🗸		
	Surface	~	
Warranty Information			
Hollow PE parts	10 years		
Hot dip galvanised steel	Lifetime		
Spare parts guaranteed	10 years

#### Verification of CO<sub>2</sub> calculation of: Freestanding play equipment

Data version no. 2023-10-05

The  $\mathrm{CO}_2$  calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: GXY916012-3417.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025 Verified by:

Julie Marie Vejsgaard Larsen, LCA & EPD Consultant

Verification based on report: Validation of  $CO_2$  calculation of 9 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Julie M. V. Larsen.

Publication date: 30. October 2023

Cradle to Gate A1-A3	Total CO <sub>2</sub> emission	CO₂e/kg	Recycled materials
	kg CO₂e	kg CO₂e/kg	%
GXY935012-01	200.71	3.03	31.81

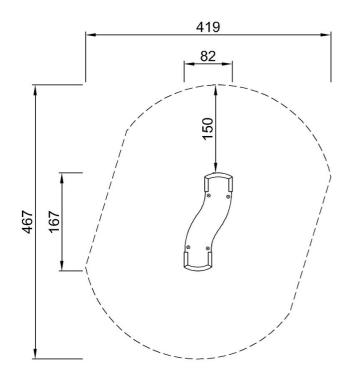

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
