

The Witch's Tower ADA

NRO2008

KOMPAN
Let's play

This tower invites multi-level, varied climbing and sliding. A play table next to the accessible stairway up to the lower sliding platform invites gathering and meeting. From the platform the child can slide down or progress to the next platform level, where a taller slide can provide a ride to ground level. It also provides a rope climbing and a wall climbing access to the

highest platform as well. The lower tower is designed to allow for children with walkers or wheelchairs either playing at the table or using the stairway. The product is available as FSC® Certified (FSC® C004450) robinia wood on request.

Item no. NRO2008-1021

General Product Information

Dimensions LxWxH	868x593x534 cm
Age group	4+
Play capacity (users)	21
Colour options	

The Witch's Tower ADA

NRO2008

Climbing wall

Physical: supports cross coordination and leg, arm and hand strength. Climbing through the holes trains proprioception. **Social-Emotional:** children develop courage when climbing up high. This positively affects self-confidence.

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

Climbing net

Physical: children develop cross-body coordination and muscle strength when climbing. The big meshes allow for climbing and crawling through, supporting proprioception and spatial awareness. **Social-Emotional:** the big meshes allow for more children to sit together and talk.

Curved slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking.

Desk

Social-Emotional: great meeting place and space creator for storing or sitting.

The Witch's Tower ADA

NRO2008

All Organic Robinia products by KOMPAN are made of Robinia wood from sustainable European sources. On request it can be supplied as FSC® Certified (FSC® C004450).

The paint used for coloured components is water based environmentally friendly with excellent UV resistance. The paint is in compliance with EN 71 Part 3.

Molded PE slides made with 33% post-consumer materials in different colors in one-piece design with a wall thickness of minimum 5mm. The PE is tested for UV stability and has excellent impact strength and it is usable within a large temperature span.

Item no. NRO2008-1021

Installation Information

Max. fall height	300 cm
Safety surfacing area	71.2 m ²
Total installation time	56.0
Excavation volume	2.12 m ³
Concrete volume	0.39 m ³
Footing depth (standard)	100 cm
Shipment weight	2,429 kg
Anchoring options	In-ground ✓

Warranty Information

PE slide	10 years
Robinia wood	15 years
Ropes & nets	10 years
Spare parts guaranteed	10 years
Stainless steel components	Lifetime

Ropes of UV-stabilized PES rope strands with inner steel cable reinforcement. The polyester yarn is made from +95% post-consumer materials and is inductively melted onto each strand.

The hardware is made of stainless steel or galvanised steel to ensure durable connections with a high corrosion resistance.

The Robinia products are designed with a KOMPAN colour concept with a number of different standard colours. The wood can also be supplied as untreated or with brown painted with a pigment that maintains the wood colour.

Sustainability Data

NRO2008

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
NRO2008-1021	1,004.47	0.49	6.54

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Nature play

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Nature play" represented by item no.: NRO409-0621.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).
