

Play Tower with ADA Stairs

PCM100131

This fantastic play tower will inspire young children to play actively, using their muscles to climb to the top and slide to the ground, again and again. The stair provides an age-appropriate access to the tower that strengthens leg muscles and helps to develop skills at climbing stairs, an important everyday task. The playhouse also offers a space for

creative and imaginative play themes. The windows encourage children to seek out their friends from on top of the tower, and to imagine that they are in a tree house or a look-out. Active and physical imaginative play helps to support children's creativity and thinking. The sturdy desk on the side of the structure is an additional place for meeting and creating,

together, supporting social skills. Sliding supports posture and balance, all important skills for young children as they grow, and great physical fun.

Item no. PCM100131-0902	
General Product Information	
Dimensions LxWxH	411x130x221 cm
Age group	2 - 5
Play capacity (users)	7
Colour options	

Play Tower with ADA Stairs

PCM100131

Theme

Cognitive: suggests a theme and supports dramatic play, which stimulates language and communication skills.

Window

Social-Emotional: invites interaction between sides and cooperative play.

Slide

Physical: sliding develops spatial awareness and a sense of balance. Furthermore, the core muscles are trained when sitting upright going down. **Social-Emotional:** empathy stimulated by turn-taking. **Cognitive:** young children develop their understanding of space, speed and distances when sliding down quickly.

Desk

Social-Emotional: fine meeting place and a space creator. Sharing and cooperation from both sides create a social scenario that supports communication and cooperation.

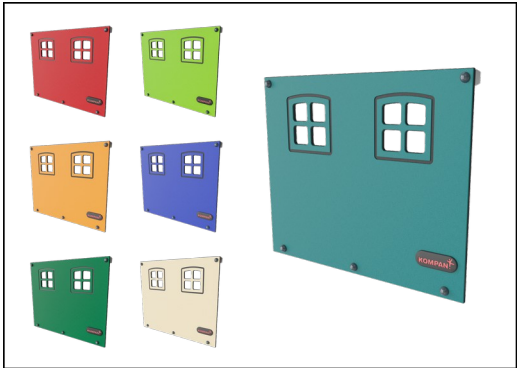

Accessible stairway

Physical: climbing the accessible stairway is for all and supports cross coordination as well as arm and leg muscles. For young children, walking stairs and alternating feet is developed. **Social-Emotional:** room for active breaks and adult helpers. An inclusive space.

Play Tower with ADA Stairs

PCM100131

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of material produced from +95% recycled post consumer material from food packing waste.

Main posts with hot dip galvanized steel footing are available in different materials: Pressure impregnated pine wood posts. Pre-galvanized inside and outside with powder coated top finish steel posts. Lead free aluminum with color anodized top finish. Greenline TexMade posts of 95% post-consumer recycled PE and textile waste.

All decks are supported by unique designed low-carbon aluminum profiles with multiple attachment options. The grey colored molded decks are made of 75% post-consumer waste PP material with a non-skid pattern and texture surface.

Item no. PCM100131-0902	
Installation Information	
Max. fall height	163 cm
Safety surfacing area	31.9 m²
Total installation time	12.6
Excavation volume	0.38 m³
Concrete volume	0.00 m³
Footing depth (standard)	85 cm
Shipment weight	371 kg
Anchoring options	In-ground ✓ Surface ✓
Warranty Information	
EcoCore HDPE	Lifetime
Post	10 years
PP Decks	10 years
Spare parts guaranteed	10 years

The slides can be chosen in six different colors and three materials: Straight or curved one-piece molded PE slides, made from 33% recycled post-consumer materials in different colours. Combined EcoCore™ sides and stainless-steel. Full stainless steel in one piece design for more vandalism proof solutions.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

KOMPAN GreenLine versions are designed with ultimate environmentally friendly materials with lowest possible CO2e emission factor. TexMade post, EcoCore™ panels of 95% post-consumer recycled waste and molded PP decks.

Sustainability Data

PCM100131

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%
PCM100131-0951	352.36	1.20	75.58
PCM100131-0902	508.34	1.91	64.67

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Verification of CO₂ calculation of: Play systems

Data version no. 2023-10-05

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Play systems" represented by item no.: PCM200321-0950.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 30. October 2023 | Valid until: 30. October 2025
